

Internship position

E-bike sharing mobility study

Our mission at tracy.ai

We are a Swiss start-up developing tomorrow's e-bike mobility ecosystem, through data collection, analysis and enhancements with Artificial Intelligence.

The project

We are currently running a pilot project Publibike which aims at improving their e-bikes sharing fleet operations as well as their users' experience. Understanding their users' needs will be the first step towards the design of tomorrow's soft mobility ecosystem.

Your role

You will be responsible for defining the mobility study content and format and collect the information towards Publibike's users at EPFL / UNIL campus, Lausanne and Sion. You will also be responsible to organize an event on the EPFL/UNIL campus in collaboration with Act4Change and Publibike in order to draw attention towards e-bikes as soft mobility solutions.

Your responsibilities:

- **Survey creation**
- **Data collection and analysis**
- **Survey report creation**
- **Event organization**

The **final output** of the internship shall be a report with a set of recommendations on how to improve operations and attractiveness of e-biking sharing fleets. The report will be presented to Publibike and the cities of Lausanne, Sion as well as EPFL / UNIL mobility department.

Personal profile

We are looking for an open minded person with an interest in future mobility solutions. Proficiency in French is a must and good English knowledge would be a plus. Being an e-bike user yourself is of course a real added value.

Length and remuneration

- **Duration:** 2 months at 50% from 15th August until 15th October
- **Salary:** 1'000.- / month
- **Location:** Mainly in Lausanne with some travel to Sion
